2013 Youth Camp: Along the road with You

Over the years, I have been to a few youth camps and every year I look forward to it because it always draws me closer to God in ways that equips me to be a more faithful and a more joyful servant for the Lord. I am thankful that the Taiwan Missionary could come and present the camp because the different testimonies really inspires us to share our lives with others and it truly shows God's great works.

During the camp, we really learn a lot from our friends and people that we do not know. I feel that these encounters are important to help us share our testimony and it teaches us how to spread the gospel by the way we live. The camp really shows that Christians do have fun and it helps build our relationship with other people. Everything was very well organized by the Taiwan Missionary and the various activities were very entertaining. The movie was especially touching and it was a wonderful topic.

I hope that everything I have learnt will be used in my life to spread Jesus love. After the camp, I hope to be more confident in talking about what God has done for my life and about His salvation. I pray that God enables me to show others that everything we do as His followers, we do it for Him and may we do it wholeheartedly. As I serve and show care to others, I want to let more people know it is because God loves us and I want to show that I love God too.

I am also thankful for my youth buddies for helping while enjoying the camp to the fullest of its potential. Reverend Douglas, Aunty Whitney and Alex are always such a great example to us all as the youth and I appreciate all the work that they do because they do it to glorify our Lord.

Living out love =))
